

# WORKSHOP

## ARCHIVE & INTERACTION DESIGN

(EASTER 2014: 14-17 APRIL 2014)

CENTRAL SAINT MARTINS\_LONDON

### CALL FOR PARTICIPANT

WORKSHOP: ARCHIVE & INTERACTIVE DESIGN

ANIMATED BY: **ARTCHIVIUMLab\_www.artchiviumlab.com**

WHEN: 14-17 April 2014

WHERE: CENTRAL ST MARTINS

We are looking for students with an interest in social sciences and design to join us for this fascinating four-day workshop where we will be challenging traditional thinking on how to exhibit archives.

### Workshop short description:

Archives are fascinating materials for artists, designers and museum professionals, but their use and exhibition has suffered a real lack of innovation in the recent past. Happily, the digital revolution now offers incredible opportunities for enhancing archives in the most compelling and stimulating ways! For this workshop, we propose to investigate a very refreshing form of presentation through the new means of augmented reality.
